**FARRIER
TOOLS**

6001 Farrier Aprons

The Apron is feature packed and offers high quality protection to the farrier:

- This apron comes in one size and is ideally suited to Farriers under 6' in height. The length of this Apron is 72cm
- The waist strap has been very thoughtfully designed, using a clip on button system to ensure horse hair and dirt, does not compromise the grip of the waist strap over time. It also features a plastic quick release buckle for quick removal as well as a back support attached to the strap,
- This apron has a knife pocket on both legs.
- Added padding to knees for increased protection to the legs,
- Ultralight apron with an internal lining that allows air circulation.
- Made with a combination of leather and fireproof canvas, the Leather has been tanned with chromium salts to make it more durable.
- Canvas is made with high quality polyester and PVC.
- Adjustable buckles at waist and inner thigh.
- Suitable for professional farriers who are shoeing/trimming 16-40 horses per week
